EDUCATION

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

CMR college of engineering and technology

EXPERIENCE

• Socifyme Applications Pvt Ltd

February 2023 – September 2023

SWE Intern

Hyderabad

- Architected and developed a fully **responsive, production-grade logistics platform** using **React.js**, handling complex user workflows and cross-device compatibility.
- Designed and implemented a **scalable admin dashboard architecture** supporting advanced **content management**, real-time order lifecycle tracking, and high-volume customer inquiry workflows.
- Integrated and orchestrated **Google Cloud services** to enable **low-latency data synchronization**

• MentorHeal

November 2023 – December 2023

Full Stack Developer

Hyderabad

- Developed a fully **responsive web platform**, ensuring a smooth and consistent **user experience**.
- Implemented interactive **community features** to support engagement and communication between mentors and users.
- Optimized application performance to improve **load times**, responsiveness, and overall user experience.

• Grey Scientific Labs

May 2025 – June 2025

SWE Intern

Bangalore

- Developed a **medical diagnosis application** featuring dedicated dashboards for doctors and administrators, with structured diagnostic reports and data visualizations.
- Built and maintained multiple **admin modules**, including attendance management, user management, and analytics reporting.
- Optimized application performance to reduce **latency**, resulting in a faster and smoother user experience.

• AI Research Centre - Woxsen University

November 2025 – January 2026

AI Developer Intern

Hyderabad

- Worked on **AI-powered applications for schools**, focused on improving academic and administrative workflows.
- Built intelligent systems to **map teachers to subjects** based on expertise, performance, and availability.
- Developed and maintained **admin dashboards** for attendance tracking, teacher management, and student analytics.
- Implemented **AI-driven insights and reports** to support data-driven decisions for school administrators.
- Optimized backend workflows and AI pipelines to reduce **latency** and improve overall system performance.

PROJECTS

–FeedSenseAI

[Link](#)

Web App

- * An **AI-powered feedback management platform** that transforms user feedback into clear, **actionable insights**.
- * Enables users to submit **feedback, bug reports, and feature suggestions** through a unified system.
- * Implemented **AI-driven recommendations** to help founders, developers, and designers prioritize real user needs.
- * Integrated **Razorpay** for secure subscription payments and plan management.
- * Deployed the **LLaMA 3 model** on cloud infrastructure (Cloudflare + Google Cloud) for scalable, low-latency inference.
- * Centralized feedback across products to improve team alignment; used by **20+users**.

–Matrix

[Link](#)

PWA App

- * Built a **Progressive Web App** to connect college peers working in the same tech domain.
- * Enabled **real-time peer connections** with instant messaging, notifications, and live interactions.
- * Implemented **real-time chat** and **media posting** (images/posts) for seamless collaboration and engagement.
- * Lightweight, fast, and responsive; currently used by **65 users**.

TECHNICAL SKILLS

***Programming:** Java · JavaScript · TypeScript · Python
***Web Development:** React · Next.js · Redux · Node · Express · FastAPI · Django · GraphQL
***App Development:** React Native
***DataBase:** MongoDB · MySQL · PostgreSQL · Prisma · Drizzle
***Cloud:** Google Cloud · AWS · Azure
***Tools:** Linux · Docker · LangChain · FFmpeg
***Others:** Networking · System Design · DSA

ACHIEVEMENTS

- * Achieved **1st place in an IoT Hackathon** for creating an innovative IoT solution. [Certificate Link](#)
 - * Secured **1st place in an App Development Hackathon** for developing a user-friendly mobile application. [Certificate Link](#)
 - * Ranked in the **top 10 at the JNTU Hackathon**, demonstrating strong teamwork and problem-solving skills. [Certificate Link](#)
-
